

**TOWN OF BEDFORD
WESTCHESTER COUNTY, NY
DEPARTMENT OF PUBLIC WORKS**

Kevin Winn, P.E. Commissioner
Andrew Rosafort, Road Foreman

Robert Mascianica, Deputy Commissioner
William Nickson, Water Foreman

The Town of Bedford Beaver Dam Compost Facility processes recyclable wood waste and leaves from the Town and provides beneficial reuse of the waste as compost and mulch. The facility provides an extremely cost effective method for this recycling as well as an environmental benefit of local recycling with minimal transportation requirements.

It is open for residents to dispose of recyclable wood waste (logs and branches up to 6" diameter, brush, and leaves), as well as pick up wood mulch and leaf compost. This service is free to Town of Bedford residents between 7:30 AM and 3:00 PM Monday to Friday, excluding Town holidays.

As of September 2017, the Town is adding additional hours on four Saturdays per year:

- September 16, 2017 from 10:00 AM to 2:00 PM
- May 5, 2018 from 7:00 AM to 3:30 PM
- Two other Saturdays from 10:00 AM to 2:00 PM in 2018, dates to be announced

The facility is located on Beaver Dam Road north of Harris Road, adjacent to the Bedford Dog Park. The facility is operated by Westwood Organic Recycling. Residents of the town showing proof of residency will have the ability to dispose of their natural wood waste at the facility. Drop off and material pick up is available at three bins immediately inside the gated area of the facility on the right side. Residents will be able to pick up materials in non-commercial vehicles for their own personal use, and are responsible for loading and handling materials themselves. No trucks larger than pick up trucks will be permitted. There is no charge for these materials.

In order for this service to be successful and continue, it is essential that no material other than recyclable wood waste (logs and branches up to 6" diameter, brush, and leaves) be dumped at the facility. The material is processed into mulch and compost at the facility. The facility can not accept stumps, pressure treated wood, fences, or any other waste. Any bags must be brown paper compostable leaf bags. Because unforeseen items may be found in leaf bags, residents will be required to open leaf bags upon request by a Westwood Organic employee.

Westwood also provides delivery of mulch, compost and topsoil at discounted rates to Town residents, and can be reached at 914-949-3244.

Please contact the Bedford Department of Public Works at 666-7669 if you have questions.
